- Bjørg Mikkelsen, Food Department at Faroese Food and Veterinary Authority, Faroe Islands
- Ieva Garanča, The Ministry of Health of the Republic of Latvia, Rīga, Latvia

1. The paper on "Identification and prioritization of systematic reviews topics for NNR2022"

The Committee will prioritize 10 PI/ECOTSS for Systematic Reviews (SRs). The prioritisation of PI/ECOTSS is decided in a modified Delphi process. In order to comply with transparency, we have started to develop a paper on this process which should be ready for publication in a scientific journal Q1 2021. The first topic for a SR was selected at our last meeting. The next 4 PI/ECOTSS was selected and adjusted at this meeting, and the SR Centre will start working on the protocol for these topics primo 2021. The last 5 priorities will be initiated by mid-2021. Before initiating the last 5 SRs, another Delphi round with ranking among the NNR2022 Committee will be performed.

2. Manuscripts for the papers "Use of DRVs and FBDGs" and "Methodology for setting DRVs and FBDGs"

This point postponed until the next meeting.

4. Sustainability (status)

This point postponed until the next meeting.

5. Scoping Reviews

This point postponed until the next meeting.
