### **1. Discuss referee comments to chapters**

The NNR2022 Committee has developed an extensive procedure for handling the chapters in NNR2022. Chapters are now continuously peer-reviewed and will be adjusted by the chapter authors according to the referee comments, and comments from the NNR2022 Committee, before they will be announced for public hearing through the official NNR2022 webpage. The NNR2022 Committee discussed referee comments for the chapter on "fats and oils" The chapter will be returned to the authors with both referee comments and comments from the NNR2022 Committee before they will be considered again for public consultation.

### **2. Discuss chapters ready for public consultation**

All nutrient and food group chapters in NNR2022 will be announced for public consultation for eight weeks through the project's official webpage. The first chapters are already announced, and the process will continue throughout the spring, summer, and fall. The NNR2022 Committee will continuously throughout the spring discuss chapters that may be ready to be announced for public consultation. The NNR2022 Committee will make sure to announce the public consultations through several channels in order to inform all relevant stakeholders, scientists and interested parties. The following chapters was discussed and will be announced for public consultation shortly: "vitamin A", "iodine", "calcium" and "meal patterns".
