1. Status NNR SR Centre

Agneta Åkesson, head of the NNR SR Centre, informed the NNR2022 Committee on status and tentative time schedule for the systematic reviews that will be conducted within the NNR project i.e. *de novo* SRs. The first SR, plant protein intake in children and body growth, will be ready in mid-June 2021. As the NNR2022 Committee are in the process for selecting the last five topics, a tentative timeframe was discussed.

2. Results from Delphi process

As stated earlier, the Committee will prioritize 10 topics for Systematic Reviews (SRs). The first five topics were selected early in 2021. The NNR2022 Committee are now in the process of selecting the last five topics in a final Delphi process. The results from the prioritization process was discussed. Consensus was reached for the five last topics, however the NNR2022 Committee must adjust and limit the scope of the research questions (formulated as PI/ECOTSS). This process will continue in dialog with the NNR SR Centre. As described earlier, a scientific article describing this process is submitted to Food & Nutrition Research.

3. Use of NNR

The manuscript on "Use of NNR" are moving forward and the NNR2022 Committee are still discussing and adjusting drafts. The Committee aim to submit the manuscripts for publication in Food & Nutrition Research before the summer.

4. Methodology for setting DRVs

The manuscript on "Methodology for setting DRVs" are moving forward and the NNR2022 Committee are still discussing and adjusting drafts. The Committee aim to submit the manuscripts for publication in Food & Nutrition Research before the summer.

5. Revised budget

Due to limited time, this point was postponed until the next meeting.
