1. Process for finalizing chapter and hearing process

Every nutrient and food group chapter in NNR2022 will be available for public hearing. NNR2022 will have more than 60 chapters with contribution from about 300 experts. The first third of the chapters will be finalized by the authors before the summer. The chapters will be peer-reviewed during the summer. The NNR2022 Committee serve as editors and will be responsible for formulating the dietary reference values and food based dietary guidelines based on recommendations from the authors. The NNR2022 Committee discussed how this process should be coordinated.

2. Use of NNR

The manuscript on "Use of NNR" are moving forward and the NNR2022 Committee are still discussing and adjusting drafts. The Committee aim to submit the manuscripts for publication in Food & Nutrition Research before the summer.

3. Methodology for setting DRVs

The manuscript on "Methodology for setting DRVs" are moving forward and the NNR2022 Committee are still discussing and adjusting drafts. The Committee aim to submit the manuscripts for publication in Food & Nutrition Research before the summer.

4. Next round of Delphi process for prioritization of topics for SR

The Committee will prioritize 10 PI/ECOTSS for Systematic Reviews (SRs). The first five topics were selected early in 2021. The NNR2022 SR Centre have initiated most of these five SRs and all protocols is registered in PROSPERO. The NNR2022 Committee will now select the last five topics in a final Delphi process. The Delphi process will continue until consensus for the last five topics is reached. As described earlier, a scientific article describing this process is submitted to Food & Nutrition Research.

5. Status sustainability experts

The work on the first background paper "Environmental- friendly food systems – a synthesis of present evidence" have started. This work is led by Tim Benton and Helen Harwatt (Chatham House, London). Co-authors are Helle Margrete Meltzer, Ellen Trolle, Amanda Wood, Elin Rööös and Arne Bardalen.

In addition, several Nordic experts is recruited to the second paper **Pathways to environment-friendly food systems in a Nordic and Baltic context**. Lead authors: Tim Benton, Helen Harwatt, Helle Margrete Meltzer, Ellen Trolle, Amanda Wood, Elin Rööös, Co-authors: several Nordic and Baltic experts: Arne Bardalen and Audun Korsæth (Norway), Elin Rööös and Christel Cederberg (Sweden), Michael Heuschild (Denmark), Merja Saarinen and Hanna Tuomisto

(Finland), Bryndis Eva Birgisdottir and Olafur Ögmundarson (Iceland), Sirli Pehme (Estonia) and Ieva Gudaviciene (Lithuania).
