

Meeting minutes: NNR 2022 Committee Meeting April 16, 2020

Leader of the meeting	Rune Blomhoff
Date	16/04-2020
Place	Zoom-meeting
Secretary	Anne Høyer
Attending	<ul style="list-style-type: none">• Rune Blomhoff, University of Oslo, Oslo, Norway• Helle Margrete Meltzer, Norwegian Institute of Public Health, Oslo, Norway• Jacob Juel Christensen, University of Oslo, Oslo, Norway• Hanna Eneroth, The National Food Agency Uppsala, Sweden• Eva Warensjö Lemming, The National Food Agency, Uppsala, Sweden• Ellen Trolle, Technical University Denmark, Kgs. Lyngby, Denmark• Rikke Andersen, Technical University Denmark, Kgs. Lyngby, Denmark• Inga Þórsdóttir, University of Iceland, Reykjavík, Iceland• Þórhallur Ingi Halldórsson, University of Iceland, Reykjavík, Iceland• Ursula Schwab, University of Eastern Finland, Kuopio, Finland• Maijaliisa Erkkola, University of Helsinki, Helsinki, Finland• Tagli Pitsi, National Institute for Health Development, Tallinn, Estonia• Erik Arnesen, The Norwegian Directorate of Health, Oslo, Norway• Anne Høyer, The Norwegian Directorate of Health, Oslo, Norway
Not attending	<ul style="list-style-type: none">• Lāsma Piķele, The Ministry of Health of the Republic of Latvia, Rīga, Latvia• Inese Sikсна, The Ministry of Health of the Republic of Latvia, Rīga, Latvia• Almantas Kranauskas, Ministry of Health, Vilnius, Lithuania• Bjørg Mikkelsen, Food Department at Faroese Food and Veterinary Authority, Faroe Islands

Agenda

- 1. Nominations of Systematic Reviews (SR) topics from the public call.**
- 2. Criteria for shortlisting and prioritization of SR topics.**
- 3. Identification and prioritisation of SR topics.**
- 4. Table with qualified SRs.**

- 5. Workshop on sustainability.**
- 6. List of chapter experts.**
- 7. Who should formulate specific national DRVs and FBDGs?**
- 8. Principles and system for comments and response at our website.**
- 9. NNR-SR centre.**
- 10. Next meetings**

- 1. Nominations of Systematic Reviews (SR) topics from the public call.**

The Committee will go thoroughly through all public nominations of topics for SRs. All suggestions will be considered, and relevant suggestions will be included in the Scoping Reviews (ScRs). PI/ECOTSS are made when relevant and the topic might be shortlisted for SRs.

- 2. Criteria for shortlisting and prioritization of SR topics.**

The Committee discussed the criteria for shortlisting and prioritization topics for SRs. The criteria will be published in the article: Christensen JJ, Arnesen EK, Andersen R, Eneroth H, Erkkola M, Høyer A, et al. The Nordic Nutrition Recommendations 2022 – Principles and methodologies. Food Nutr Res. 2020.

- 3. Identification and prioritisation of SR topics.**

The Committee will prioritize 10 PI/ECOTSS for SR. This process will not start before the ScRs for all chapters are completed.

- 4. Table with qualified SRs.**

The Committee have made a list of qualified SRs based on the inclusion and exclusion criteria described in Christensen JJ, Arnesen EK, Andersen R, Eneroth H, Erkkola M, Høyer A, et al. The Nordic Nutrition Recommendations 2022 – Principles and methodologies. Food Nutr Res. 2020.

- 5. Workshop on sustainability.**

Due to the deterioration of the COVID-19 situation, the health authorities in Norway decided that our seminar on diet and sustainability on March 11th had to be cancelled. The Committee now plans for a webinar in September. The program will be the same as

originally planned. More information on this will come at our web-page as soon as the new date is settled and the program confirmed.

6. List of chapter experts.

The list of suggested chapter authors is soon completed, and the Committee will start to invite authors as soon as possible. There will be two authors and two referees for most chapters. Some chapters will have more authors if needed.

7. Who should formulate specific national DRVs and FBDGs?

In the former editions of NNR, the Committee has developed general formulations of FBDGs. Each country has then developed the final national FBDGs with small adjustments. All the Nordic countries have had somewhat different final formulation of the final FBDGs, albeit the scientific basis is the same. The DRVs on the other hand has been more identical as set by the Committee. The Committee discusses if we should continue with this process or if the Committee should make more specific FBDGs in NNR2022 for all countries. After consultation with the Steering Committee, the NNR 2022 Committee agreed to continue in a similar manner as the last NNR.

8. Principles and system for comments and response at our website.

The Committee will communicate with commercial interest, stakeholders and industry through an open dialog at our website. We are now working on a system for responding to all comments that are received. All answers will be announced at our web-page.

9. NNR-SR centre.

The NNR-SR Centre is almost completed as nine members have confirmed their participation. The members of the centre will be announced at our web-page when completed.

10. Next meetings (most likely via Zoom):

We will plan for Zoom meetings throughout 2020.
