- Rikke Andersen, Technical University Denmark, Kgs. Lyngby, Denmark
1. **Discuss setting of DRVs and one-pager for nutrients**

Please refer to meeting minutes from 02.11.22 and 15-16.11.22 for information regarding the process for setting dietary reference values (DRVs) for nutrients and one-pager (item 2).

Based on the template for a one-pager that was developed based on discussions at the previous meeting, a one-pager was presented for the following nutrients and food groups: fats and oils, niacin, thiamin, meal patterns, eggs, sweets, and vitamin B12. The setting of the dietary reference values and food based dietary guidelines will be discussed again at later meetings.

2. **Discuss referee comments to chapters**

As described in previous meeting minutes (02.11.22 item 1), the NNR Committee has developed an extensive procedure for handling the chapters in NNR2022.

The NNR2022 Committee discussed referee comments for the chapter on "Pulses and legumes" and "Fish and seafood". The comments from the referees and the Committee will be returned to the authors.
