1. Discuss setting of DRVs and one-pager for nutrients

Please refer to meeting minutes from 02.11.22 and 15-16.11.22 for information regarding the process for setting dietary reference values (DRVs) for nutrients and one-pager (item 2).

Based on the template for a one-pager that was developed based on discussions at a previous meeting, a one-pager was presented for the following nutrients and food groups: zinc, choline, and eggs. The setting of the dietary reference values and food based dietary guidelines will be discussed again at later meetings.

Due to unforeseen events, the discussion of the following nutrients will be postponed until the next meeting; vitamin B6, alcohol, dietary patterns, molybdenum, folate, antioxidants and phytochemicals
