## **1. Set dietary reference values and suggest science advice on all food groups to the national health authorities**

The NNR Committee discussed all nutrients and food groups with the aim to set all dietary reference values (DRVs) and science advice for food groups based on health effects (sustainability aspects will be included when the public consultation of the background papers are finalized). At this timepoint, DRVs for adults will be set. Scaling to the different age groups will be performed, and discussed, at a later timepoint.

## **2. Discuss summary report**

The NNR Committee discussed the format and the first draft of the text in the NNR summary report. The summary report will be the main report from the NNR Committee and will include all the conclusions. The Summary report will be announced for public consultation.
