1. **Discuss further process for finalization of the NNR report**

The NNR2023 draft report is now announced for public consultation until May 26th. The final report will be published on June 20th. The NNR Committee discussed the further process and workplan towards finalization of the report and how public consultation comments should be handled.

All public consultation comments will be handled continuously, and new comments will be discussed each week at Committee meetings.

All background papers on environmental sustainability aspects and physical activity will be finalized before June 20th. The background paper on disease burden will be finalized when the GBD 2021 dataset is available. The background paper on "Use of DRVs" will tentatively be finalized before June 20th.

2. **Discuss process for finalization of background papers on nutrient and food groups**

The background papers on food and nutrient groups will be finalized and published after June 20th. However, all scientific issues must be clarified and finalized before June 20th. Only editorial changes will be performed after June 20th.
